New Editors-in-Chief team for Journal of Clinical Neuroscience

Elsevier is delighted to inform you about our all-women Editors-in-Chief team for *Journal of Clinical Neuroscience*. Doctors Kate Drummond and Ariane Lewis are the new duo that are now spearheading the editorship of journal with Ariane being the most recent appointment in early 2022. Kate and Ariane have revised the journal's aims and scope as they solidify their focus and strategic goals for the journal moving forward. You can read the new aims and scope at <https://www.journals.elsevier.com/journal-of-clinical-neuroscience>

Please join me in welcoming our new Editors-in-Chief, whose biographical information you can read below.

Professor Kate Drummond, AM, MD, FRACS is Director of Neurosurgery at Royal Melbourne Hospital and Head of CNS Tumours at the VCCC Parkville Precinct. Her research and clinical interests are in the biology and management of brain tumours, with special interests in advanced surgical techniques such as awake craniotomy, quality of life and blood and imaging biomarkers (including liquid biopsy). She has published over 150 peer-reviewed papers and many book chapters and has received more than \$21.5 million in research funding. Her h-index is 35, i10-index 85 and she has 3816 citations. As well as being Co-Editor-in-Chief of the *Journal of Clinical Neuroscience*, she is also on the Editorial Board of the *Journal of Neurosurgery*. She has served as Chief Examiner in Neurosurgery, Chair of the Women in Surgery Committee and on the Neurosurgery Surgical Education and Training Board for the Royal Australasian College of Surgeons, being awarded the RACS medal for these services. She has been Vice President of the Asian Australasian Society of Neurosurgeons, is the current Chair of the Education Committee and is the 2nd Vice President (AASNS) for the World Federation of Neurosurgical Societies. Kate is a strong advocate for and has written and presented widely on diversity in neurosurgery. She is Chair of

Pangea Global Health Education, a for-impact organisation specializing in health education in low resource settings. In 2019 Kate was awarded Member of the Order of Australia (AM) for services to medicine, particularly in neuro-oncology and community health.

Dr. Ariane Lewis is a Professor in the Departments of Neurology and Neurosurgery and the Director of the Division of Neurocritical Care at NYU Langone Medical Center. Dr. Lewis has over 100 publications on a range of topics in clinical neuroscience including death by neurologic criteria, quality improvement in neurocritical care, stroke, complications of COVID-19, hypoxic-ischemic brain injury, ethical controversies in clinical neuroscience and the use of simulation in education for graduate and undergraduate trainees. She is also the Deputy Editor for the Disputes and Debates section of *Neurology and Seminars in Neurology* and was a guest editor for the August 2019 issue of *Neurosurgical Focus* on "Primary and secondary infections of the brain" and the December 2020 issue of *AMA Journal of Ethics* on "Socially situated brain death." As an expert on end-of-life social, ethical and legal controversies related to death by neurologic criteria, she served on the Steering Committee for the World Brain Death Project, is an observer on the Determination of Death Act Drafting Committee, and the International Advisor to the Canadian Critical Care Society Definition and Determination of Death Committee. She is also the Chair of the NYU Langone Medical Center Ethics Committee, the Past Chair of the Neurocritical Care Society Ethics Committee and a member of the American Academy of Neurology Ethics, Law and Humanities Committee. Dr. Lewis was chosen to be a Fellow in the Neurocritical Care Society due to her clinical and scholarly leadership in neurocritical care.

Elsevier wishes Kate and Ariane all the best in their new Editor-in-Chief roles.
